

# Fireproof lifeline

[www.DX-marine.com](http://www.DX-marine.com)  
DESIGN BY DX-MARINE

## A. *Standard*

SOLAS 1974, as amended; MSC.61(67)-(FTP code)

## B. *Technical parameter*

- Length :  $\geq 30\text{m}$
- Diameter: 5mm
- Breaking load : 3.5 kN
- High pressure resistance : 20000V
- Material :  $\Phi 5\text{mm}$  steel wire rope with rubber cover and two hook

## C. *Features*

- Wire rope can transmit long-distance loads.
- It has a large safety bearing factor and is safe and reliable to use.
- Light weight, easy to carry and transport.
- Can withstand multiple loads and variable loads.
- Has high tensile strength, fatigue strength and impact toughness.
- Under high-speed working conditions, it is wear-resistant, shock-resistant, and stable in operation.
- Good corrosion resistance, able to work in harsh environments of various harmful media.
- It has good softness and is suitable for many applications such as traction, pulling and tying.

## D. *Approved: EC MED SOLAS*

**Jiangsu Dingxiang Marine Equipment Co.,LTD.**  
**Professional fire fighting & life saving equipment manufacturer**
